National Pollution Control Day-2020 !!!

IITM-ENVIS is resource partner to the MoEF&CC, Govt. of India on the thematic area of the “Atmospheric pollution and Climate Change”. Our objective is to spread awareness and train youth in fields related to our thematic area.

“National Pollution Control Day” is observed to commemorate the people who lost their lives in the unfortunate incident of Bhopal Gas Tragedy that occurred on this day in 1984. This was one of the biggest and worst industrial disaster claimed around 4000 lives immediately after incidence and many thousands lives in subsequent period. We have experience hazardous impacts of toxic gas pollution by this incidence.

In our day to day activities as an individual or organization, we got many opportunities where we can improve ourselves and reduce environmental pollution. IITM-ENVIS is announcing two competitions (Essay & Photography) through which you can share such your observations, experiences or sustainable practices. The best entries will be awarded with exciting prizes & certificate.
